NO. 24

## SUBSCRIBERS TO NIGHT WATCHMAN SALARY FUND RELIEVED OF LIABILITY

Insuring of Roderick An-  
nounced Tuesday at  
C. of C. Session

The risk of being liable in  
the event of the death  
or injury to Arthur Rode-  
rick, night watchman, has  
been lifted from the  
shoulders of Niles mer-  
chants and professional men.

This interesting information  
was dispensed to some twenty odd  
members of the Niles chamber of  
commerce at the Tuesday noon  
meeting by F. V. Jones, chairman  
of the "Night Watchman" com-  
mittee.

According to Jones, Roderick  
has been fully covered by insur-  
ance and now faces the dangers  
of his job at the risk of the in-  
surance company. The fact that  
Roderick was not insured was  
given by Jones as the reason for  
several contributors to his salary  
fund withdrawing their monthly  
pledges. Now that the subscrib-  
ers to the salary fund are no  
longer liable for Roderick's well-  
being while on duty, it is the  
hope of Jones and his committee  
that a suitable sum will be raised  
each month and paid to Roderick  
for his efforts to guard life and  
property during the night hours.

The Tuesday noon meeting of  
the commerce chamber was rated  
as a record attendance of this  
time of the year. It marked the  
second session of the organization  
since the summer period. Harvey  
Braun, president, presided.

What the public can expect to  
see when it attends the flower  
show at San Leandro next Satur-  
day and Sunday was told in part  
by Ralph W. Chrouh, manager  
of the San Leandro chamber of  
commerce. Chrouh painted a  
very entrancing word-picture of  
the show and revealed some facts  
that proved extremely interesting  
to the Niles commerce chamber  
members.

Among the facts which proved  
of particular interest to the local  
men was that more than \$6,000-  
00 worth of marketable flowers  
are grown annually in the district  
lying between Niles and San  
Leandro.

Chrouh stated he expected  
more than thirty thousand visitors  
to the flower show, which, he de-  
clared, would outdo anything of a  
like nature ever held in Alameda  
county.

## NILES SCOUTS TO AWARD BADGES AT COURT OF HONOR

Tuesday, September 17 has been  
set aside by Niles Troop No. 1,  
Boy Scouts of America, for a  
Court of Honor to be held at  
Centerville.

Scouts Harry and Morgan Ces-  
ari are to receive second class  
badges, and Scouts Arnold Abbott,  
Jack Townsend and Byron Frantz  
are due for first class decora-  
tions.

Scout Frank Ferry and N.  
Green will receive merit badges,  
the former for leather craft and  
the latter for handicraft. The en-  
tire Troop is scheduled to make  
the trip and participate in the  
Court of Honor ceremonies.

Mrs. R. H. Hunt is hostess this  
week to her son, Richard, and his  
wife and family of Bakersfield.

## F. DUARTE WEDS HAYWARD BE'LE AFTER ELOPMENT

An elopement, an angered guar-  
dian, the threat of police inter-  
ference, and then the balm of  
forgiveness all around form the  
final chapter in a romance which  
culminated on Tuesday, Septem-  
ber 2, and in which Frank Du-  
arte of Niles and Isabelle Es-  
penosa of Hayward were the  
leading characters.

Mr. and Mrs. Duarte are at  
home today to their friends and  
they are very happy. On Sunday,  
September 1, Frank and Miss Es-  
penosa ran away. They went to  
Sacramento, took in the State  
Fair, and then went on to Reno  
where they were married.

Following the ceremony the  
newlyweds returned to the home  
of Mrs. A. Gavis in Hayward,  
where the bride had been stay-  
ing. There, so the story runs,  
they met Mrs. Ruth McCord, ex-  
ecutive secretary of the Southern  
Alameda County Welfare board.  
It seems that Miss Espenosa had  
been the ward of Mrs. McCord,  
and the latter's first impulse was  
to have the wedding annulled.

The couple looked to happy,  
however, and the future so bright,  
that Mrs. McCord softened and  
forgave the bride and wished her  
all the happiness in the world.

And regardless of the excite-  
ment their wedding caused, Mr.  
and Mrs. Duarte both claim that  
the old adage, "love will find a  
way" certainly is true.

## SPECIAL PROGRAM SUNDAY NIGHT AT IRVINGTON CHURCH

Plans for the special musical  
service to be held next Sunday  
evening at the Irvington Com-  
munity church are practically com-  
plete and all signs point to a  
very enjoyable affair.

The program, which has been  
arranged by John E. Moore, will  
include violin numbers by Wil-  
liam Fife, vocal solos by Mrs.  
Hansen, soprano of Palo Alto;  
organ selections by a Palo Alto  
organist, and several numbers by  
the choir.

The morning sermon will be  
delivered by Dr. R. M. Stevenson,  
of Berkeley. There also will be  
communion service.

## Kraft Tossers Defeat Newark Team, 10 to 5

The Kraft boys baseball team  
took a 10 to 5 swing at Newark  
last Sunday, an eighth inning  
rally clinching the game for the  
winners.

The game was played at New-  
ark before a good sized crowd.  
Dutra, Brazil and Brown formed  
the battery for the Kraft Cheese  
club. Home runs were socked  
out by Brown and Ballini of the  
winners and Nunes of the New-  
ark team.

The Kraft club collected 15 hits  
against 7 for Newark.

## Visitor Finds Niles Vacation Mecca

IT IS hard to believe what a change a few years make  
in a wide-awake and growing community such as  
Niles, Frank Mortimer of Seattle, Wash., comment-  
ed when he paid a visit to The Register office last  
week.

"Niles always was a dandy  
town," he continued, "and it  
was with regret that business  
connections forced me to leave  
over a decade ago. I am pleas-  
ed to note the signs of progress  
manifest throughout the town,  
for I consider Niles my 'home  
town.'"

Mr. Mortimer is traffic man-  
ager of the Mitsui & Co., Ltd.,  
located in its Seattle office. He  
and his family are making a va-  
cation tour to southern Califor-  
nia, or rather, his family is, but  
Mr. Mortimer decided that Niles  
was good enough for his vaca-  
tion.

In commenting upon the pro-  
gress of the town, Mr. Mortimer  
related how when he was a  
youngster here, the section be-  
low G street was all orchard  
land, and that there was an or-  
chard as far in town as where  
the American Garage now

stands. Before he left here the  
district had been laid out into  
city lots, but little improvement  
had been made.

The Essanay studio was in op-  
eration then, and Mr. Mortimer  
recalled having seen some of  
the artists who are now world  
famous, "doing their stuff"  
right here in Niles.

Mr. Mortimer was formerly  
Station agent for the Southern  
Pacific here. His father was  
the first agent the railroad had  
in Niles.

While in Niles Mr. Mortimer  
visited with many old-time  
friends. More than a score of  
his acquaintances of days gone  
by have passed on, while many  
who were boys with him are  
now successful business men.

Among the improvements  
which Mr. Mortimer comment-  
ed upon were the theatre,  
churches, schools, library and  
The Township Register.

## ALL TOWNSHIP SCHOOLS ARE IN FULL SESSION

Increase in Attendance  
Shown; New Build-  
ings In Use

All schools in Washington  
Township are now in full session,  
the Decoto and Warm Springs  
schools being the last of the  
group to get under way, opening  
Tuesday.

A number of the schools were  
forced to delay their openings  
from one to two weeks because  
of improvements and additions  
not being completed upon the  
regular opening date of Septem-  
ber 3.

In the schools where additions  
were made, the principals have  
announced increased enrollments,  
which in one or two incidences  
have already filled the increased  
space.

At Niles the enrollment was an-  
nounced as practically the same,  
and with the additional rooms ad-  
ded during the summer, the  
crowded conditions have been re-  
moved. At Centerville it was  
found necessary to add more  
rooms. The contract for the work  
was let last week to E. E. Dias  
of Niles. He will construct four  
more rooms. His bid was \$11-  
192.45.

Numerous school principals  
stated that the attendance in  
their schools would increase after  
the completion of the prune har-  
vest, as many of the older stu-  
dents are employed for harvest-  
ing of this crop which is un-  
usually late this year.

Mr. and Mrs. George L. Dono-  
van are entertaining their son,  
Carl, student at the University  
of California, this week.

## Popular Niles Girl Becomes Bride of San Francisco Man

Coming as a surprise to rel-  
atives and friends, the wedding  
of Miss Virginia Farrington to  
Walter E. Burrington on August  
31 was announced this week by  
Mr. and Mrs. E. J. Farrington,  
parents of the bride.

According to the bride's moth-  
er, the ceremony was a quiet af-  
fair in San Francisco. A short  
honeymoon was spent in Reno,  
Nevada, and then the newlyweds  
took up their residence at Port-  
ola in the high Sierras where  
the groom is employed.

The bride is one of Washing-

## POPULAR NILES COUPLE ELOPE

Miss Theresa DiGiulio, daughter  
of Mr. and Mrs. Salvatore Di Gi-  
ulio, and Edward Leal surprised  
their many friends by eloping to  
Reno last week where they were  
married, according to word re-  
ceived in Niles. The young cou-  
ple are expected back in Niles  
late this week.

Mrs. Leal is one of the popular  
members of the younger set of  
Niles, and famed for her beauty.  
She was declared Miss Niles at  
the 1928 beauty contest.

Mr. Leal is employed as a me-  
chanic in the Di Giulio garage.  
Mr. and Mrs. Leal are expected  
to make their home in Niles, ac-  
cording to the bride's parents.

## Alvarado Restaurant Threatened by Fire

Diners at an Alvarado cafe were  
given a flash of impromptu en-  
tertainment recently when a leak  
in a gas meter became ignited and  
the flames communicated to the  
wall of the building. Prompt  
response to the alarm by the fire  
department prevented serious dam-  
age.

## NEW BRIDGE ASSURED

The second award in the past  
week for bridge construction was  
won Tuesday by C. A. Bruce and  
Sons, of Pleasanton.

Construction of a bridge across  
Alameda creek in Niles canyon  
to replace the present iron and  
wood span has been entrusted to  
the Pleasanton firm. Cost of the  
new bridge is estimated at \$28-  
622.50.

Mr. and Mrs. Graham G. Adams  
of San Francisco were visitors  
last week-end at the home of his  
parents, Dr. and Mrs. John Adams,

## WIFE FORGIVES MATE FOR FLOURISHING BIG GUN

Brandishing a revolver in his  
home proved the wrong pastime  
for Plan Leuna of Old Town,  
Niles.

Fearing he might accidentally  
pull the trigger of the gun, his  
wife called for help and Leuna  
was placed in jail. He was re-  
leased two days later when his  
wife failed to swear to a com-  
plaint against him.

## PORTUGUESE OF THIS TOWNSHIP SPURN "ANGOLA"

It may be "Angola, Ho!" for  
thousands of California Portu-  
guese, but Niles and surround-  
ing territory seems to be safe  
from immediate evacuation.

Angola is a new Portuguese  
settlement on the west coast of  
Africa. A. R. Zacharias, of Hay-  
ward, is the nearest representa-  
tive of the prospective pioneers.  
He says the first boat will leave  
for the new province shortly after  
the first of the year.

The Portuguese government has  
already provided transportation  
from eastern states, but Califor-  
nians are required to pay their  
own travelling expenses.

This, coupled with the fact that  
home life is ideal around Niles,  
is keeping the local Portuguese  
young men from becoming ex-  
cited over the "new deal."

## TIME IN OFFICE DOESN'T EFFECT SUPERVISOR'S PAY

Youngest In Point Of  
Service Gets More  
Than Oldest

Point of service does not regu-  
late salaries so far as the Ala-  
ameda county board of supervisors  
is concerned.

This fact was revealed this  
week during the compiling of the  
county budget. The youngest su-  
pervisor is receiving a higher  
salary than is the oldest.

Walter Melvin Davis, youngest  
supervisor in point of service, re-  
ceives \$350 a month, while Super-  
visor Charles W. Heyer, the old-  
est, receives but \$250.

Supervisor Ralph Richmond of  
this district is in the same class  
with Davis.

The explanation lies in the fact  
that Heyer is still receiving com-  
pensation under the salary provi-  
sion of the State law. His \$250  
a month will continue until he is  
re-elected when he will come un-  
der the charter provision and re-  
ceive his \$350.

## NILES BOY SCOUT MAKES BOATS FOR SWIMMING POOLS

The matter of having no ocean,  
river or lake handy doesn't mean  
a thing in the young life of  
Harry Wilcox, 12-year-old Boy  
Scout of Niles and "professional"  
boat builder.

Harry builds boats for swim-  
ming pools. In fact any body of  
water deep enough to wade in is  
"O.K." for his boats. They are  
not over seven feet in length and  
are of wooden framework with  
heavy water-proofed canvas cov-  
ers.

The young boat builder wanted  
to build boats to earn spending  
money. It is reported he has  
sold a number to picnic parties  
and families who are lucky  
enough to have private pools.

Miss Dorothy Adams of Pasa-  
dena is the guest this week of  
Mr. and Mrs. A. F. Johnson at  
their Belvoir hotel cottage

## EDITORIAL COMMENT

By NORMAN H. PARKS, Publisher Register

### FOR THIRTY PIECES OF SILVER

SUITS filed against the Bethlehem Shipbuilding  
Corporation, the Newport News Shipbuilding  
Corporation and the American Brown Boveri Cor-  
poration, to collect a part of an unpaid fee claimed  
to have been offered to counteract the world-wide  
movement to limit naval construction, brought  
out a scathing denunciation from President  
Hoover. The executive, with unusual vigor,  
criticized the action of the companies employing  
agents to nullify the movement for arms limita-  
tion, and asserted action would be taken against  
them if the attorney general could find that legal  
means was available to punish those responsible  
for opposing the government's plan to bring a  
little nearer international amity and remove as a  
constant menace, Mars—the War God.

The swiftness with which Hoover acted, and  
the powerful blow he administered to the corpora-  
tions building battleships, has again awakened the  
admiration of the people of these United States,  
and in this particular case has won the approba-  
tion of the entire world—a world that is looking  
longingly toward that day when perpetual peace  
will be an accomplished fact.

With the administration's every resource bent  
upon creating a condition that will discourage war  
—by eliminating over-preparation for that con-  
tingency—by creating a belief that war is unneces-  
sary—it is little wonder, then, that the responsible  
heads of concerns engaged in making war-craft  
and manufacturing munitions of war tread very  
near the abyss of treason when they sent an agent  
to the Geneva conference to oppose the policy of  
this government—an international tenet moving  
toward concord among nations to limit construc-  
tion of battleships.

It need not surprise anyone that men are so  
mean, so mercenary, as to desire profit through  
the agency of death, destruction, misery, and the  
woe to the world by a mad plunge into war.  
The concerns involved in this propagandist move-  
ment to counteract the tendency toward harmoni-  
ous understanding among nations and the limita-  
tion of their expenditure for war preparation, have  
millions invested in machinery and factories for  
the very purpose of profiting through discord  
and distrust of the purposes of the world. With  
their profits threatened, they did not hesitate, it  
appears, to use disreputable means to perpetuate  
the age-old belief that war is necessary—that it  
is eminent now and always shall be. That the  
responsible heads of these corporations went so  
far as to secretly oppose the government which  
they are sworn to uphold, is not surprising. A  
page from Biblical history tells us that Judas be-  
trayed Christ to the Pharisees for thirty pieces  
of silver. And ever since that day there have  
been men as base and dishonorable.

Here we have the President of the United  
States and his entire official family and most  
of the people of the country bending all energy—  
employing every honorable means to bring about  
that desideratum that has been the dream of hu-  
manity for countless generations—the settlement  
of international disputes by arbitration and the  
outlawing of international murder. In attempt-  
ing to remove the perpetual suggestion of war,  
the excuse for war—over-preparation—the presi-  
dent and other leaders of this humanitarian move-  
ment will find this nation will applaud—the world  
commend—Hoover in his denunciation of human  
vultures who would drag the nations into war  
for dividends; who would withhold from this  
generation peace, because peace would lessen  
profits; who would impede the final triumph of  
arbitration and the banishing from modern civili-  
zation of international butchery and rapine.

The Township Register would like to see some-  
thing more than a reprimand administered to  
these billion dollar corporations for their treason-  
ous attempt. But we have no hope that this will  
be done. Hoover will try to have some legal ac-  
tion taken—but wealth winds many tapes about  
the feet of prosecuting officials, and when it is

## In Memorium

By NELL FARRINGTON MYERS  
At Welcome Home, in Niles Canyon, Calif.

Dedicated to my beloved brother Ben Farrington, whose love for Old Mother Nature, was next to that of his devoted Family, and Friends.

Not over much of worldly goods had he,  
To leave behind, for those he loved so dear.  
Yet more than all the wealth of gold or land,  
He left a legacy of kindly deeds and cheer.

Deep lofty trails, while hunting, he has trod—  
With pals and brothers he was happy all the day,  
Where twilight colors sweeping 'cross the hills;  
Reflected light far out across the bay.

A love, undaunted, he bequeathed us all,  
The golden memory of his childhood's happy years,  
For those who with him trod the homeward path;  
Who laughed and worked, and shared his joys and fears.

A tie was broken with his passing hour,  
The tie that bound him to his earthly mate;  
Then true to every sacred spoken vow,  
Full-filled all earthly promises he made.

He left behind him, the sunshine of his smile,  
Reflected in three childish faces here;  
A sacred trust for those he loved so well,  
A happy home to brighten thru' the years.

He left sweet melody in countless homes,  
Where thru' the magic of his own radios;  
His gifted fingers seem to linger still,  
His loving presence ever cheering, ever close.

He left the sun-kissed hills at even-tide,  
The dewey center of a perfect rose;  
A baby hand to nestle into mine,  
A wooded hill top, where the west wind blows.

I know that when I cross the great divide,  
And find myself upon a distant shore;  
I'll find my brother waiting there for me,  
To help swing wide, the great Celestial door.

### Pleasanton Freshmen Are Given Reception

The freshman at Amador Joint Union high school, Pleasanton, have been duly initiated into that institution of learning.

The sophomores stepped off their dignity last Friday night and sponsored a reception for the new students. A number of amusing stunts were on the program, the majority being prepared especially for the "freshies"

Just as a memory jogger, do not forget to have your battery tested and filled at least once

### BIG PROGRAM ON TAP FOR SCOUTS

Boy Scout troop No. 1 of Niles is again active after the summer holidays. The first regular meeting to be held since June took place last Friday at Moore's picnic grounds.

A program of activities for the fall season was outlined and great enthusiasm over coming events was displayed by the Scouts. Visitors at the Friday session included J. E. Townsend, R. F. Johnson, W. Brinkmeyer and George Lucas.

Tomorrow another meeting of Troop No. 1 will be held at Moore's at 6:30 p. m. The Scouts are scheduled to cook their own supper prior to the business session.

One of the outstanding items on the fall program is the matter of ways and means to create a building fund. According to heads of the local Troop, a satisfactory place to meet is absolutely essential.

### NEW TIME SCHEDULE ON SUNDAYS AT THE NILES

A change in policy regarding Sunday performances at the New Niles theater is announced this week by the management.

Starting next Sunday the program will start at 2:30 o'clock and will run continuously until eleven.

An interesting list of pictures is on tap for local theatergoers. Especially in next Sunday's all-talking picture, "The Fall of Eve." This masterpiece will feature Patsy Ruth Miller and Ford Sterling. It is a Columbia production and abounds in thrills and comedy.

Tonight the Niles is featuring Baclanova and Clive Brook in a romantic drama called "A Dangerous Woman." The Saturday bill is headed by Ken Maynard in a thrilling western drama, "The California Mail." All programs are filled out with short Vitaphone acts.

### Baby Hospital Branch Plans Annual Session

Preparations are being made by Toyon branch of the Baby Hospital of Alameda county for its first annual meeting.

This affair is to be held September 23 in the beautiful gardens of the T. D. Witherly place in Mission San Jose. A program of special significance is being prepared for the occasion, according to Mrs. James R. Whipple, chairman to Toyon branch.

Persons who have been members of the hospital association as well as all present members are expected to be present.

## COUNTY GRAVEL PITS INCLUDED IN BIG COMBINE

Four Companies Bought  
By \$20,000,000  
Corporation

Aggregates, Inc., under the leadership of Norman B. Livermore, formerly of the Coast Rock and Gravel company, which is one of the units of the new company, has been completed, and the \$20,000,000 consolidation of sand, rock and gravel companies extending from Oroville on the north to Monterey and Fresno on the south, including four local companies, is now under way as a going concern, making its debut the first of this week, according to an announcement by the new president.

In order to effect both operations and public economies and for the general improvement of service, certain plants operated heretofore by some of the constituent companies have been discontinued, Livermore said. This affects the two local plants, of the G and M and Rhodes Jamieson companies. The other two locals, Coast Rock and Gravel and California Rock companies, are still in operation.

The plan of consolidation was to coordinate the various functions of the seventeen companies now joined under the one management, and to allocate various operations among the various plants, according to the types of plants and the territories served.

All operations of the constituent units henceforth will be directed in the name of Pacific Coast Aggregates, Inc., the former names of these units as independents being discontinued.

As to the business outlook, Livermore said there was considerable business in sight with a number of large building and road contracts beginning to draw material. The company anticipates a busy season during the fall.

According to the circular issued by the new corporation during its stock selling campaign, Pacific Coast Aggregates, Inc., has been organized under the laws of the State of California for the purpose of acquiring the business and properties of a substantial majority of the important producers and distributors in Central California of sand and gravel, which are staple basic commodities used in large quantities in the construction and maintenance of highways and railroads and in all general concrete work. These companies, some of which have been in business for over twenty years, operate twenty plants producing sand and gravel and crushing stone, and twenty five distributing plants strategically located for serving an important and rapidly growing territory.

The sand, gravel and rock deposits acquired are estimated sufficient to meet the corporations requirements for over fifty years at the present rate of production. The reserves constitute a substantial majority of the known commercial deposits in the territory to be served. The producing and distributing plants will permit economical production and handling of sand, gravel and crushed stone and are so situated as to benefit by low transportation costs, an item extremely important in this business, giving the corporation distinct competitive advantages.

Pacific Coast Aggregates, Inc., will be the largest producer and distributor of sand and gravel in central California, declares the company, covering the territory comprising the cities of San Francisco, Oakland, Alameda, Berkeley, Sacramento, San Jose, Stockton, Fresno, Richmond, Livermore, Niles and Pleasanton, as well to many smaller communities. It is estimated the territory to be served contains approximately one half of the population of California, and represents one of the fastest growing sections of the United States. The building and maintenance

NILES  
CONGREGATIONAL CHURCH  
Sunday School—10 A. M.  
Church Worship—11 A. M.  
Rev. Elmer G. Brinkmeyer,  
Pastor.

of concrete highways in California has been stimulated and stabilized by the enactment of a gasoline tax. An increasing demand for aggregates for use in the construction of highways, building, bridges, sewers, harbor improvements, tunnels, water and reclamation projects and other purposes is expected, and as a result of the factors, the corporation, including the local units, should enjoy a sustained and growing demand for its products.

The officers of the new corporation include Norman B. Livermore, president; G. G. Jamieson and F. W. Erlin, vice-presidents; and among the directors, W. H. Ford, Sflas H. Palmer, Louis Sutter, F. W. Kiesel, F. W. Erlin and others.

The properties acquired include: Rhodes-Jamieson, Associated Gravel, Acme Gravel, Pratt, Rock and Gravel, Pratt Building Material with subsidiaries, Bay Development with subsidiary, Santa Clara gravel, G. and M., T. I. Butler, Inc., California Building Material, Piedra Rock, Golden Gate Atlas Materials, and California Rock companies; including all or parts of those named.

By JULIA RUSCHIN

Mr. and Mrs. G. Galt have left for their home in Nebraska after having visited here for two weeks with Mr. and Mrs. H. Williams and family.

\*\*\*  
Mrs. Janet Stevenson and son, John, and Mrs. Naylor, of Oakland, visited with friends here on Sunday.

\*\*\*  
Miss Mildred Sayles spent the week-end with her parents, Mr. and Mrs. Frank Sayles. Miss Sayles is a student at the University of California.

\*\*\*  
Mrs. Christine Jensen of Solvang, and Mrs. Ludwig Burcherdi, of San Jose, spent Admission Day as the guests of Mrs. M. W. Flaherty.

\*\*\*  
Mrs. T. A. Silva spent the holidays visiting with Mr. and Mrs. Joseph Raymond in Oakland.

Mr. and Mrs. James Steinhoff and Mr. and Mrs. Newin Mento spent the recent holiday in Los Gatos.

\*\*\*  
Mr. and Mrs. M. D. Silva and son, Eugene, spent last week-end in Santa Cruz.

\*\*\*  
Mr. and Mrs. H. W. Fuller had as their dinner guests last Saturday evening, Mr. and Mrs. Henry Potts, of Redwood City.

\*\*\*  
Mr. and Mrs. Chas. Cockeair spent the holiday in Santa Cruz where they participated in the N. S. G. W.-N. D. G. W. parade and celebration.

\*\*\*  
Mrs. Pete Bertallati and children, Shirley and Adele, returned Sunday after three months stay with Mrs. Bertallati's mother in Aurora, Illinois.

## PASTE THIS IN YOUR HAT MR. BASEBALL FAN

Here is some very interesting information for the men and women of Washington township who take their baseball seriously. In the event that the Cubs and Athletics are the pennant winners in their respective leagues the World Series schedule will read as follows:

October 8 at Chicago.  
October 9 at Chicago.  
October 10, traveling.  
October 11 at Philadelphia.  
October 12 at Philadelphia.  
October 13, open (Sunday).  
October 14 at Philadelphia.  
October 15, traveling.  
October 16 at Chicago.  
October 17 at Chicago.

## HOUSE WARMING DRAWS MANY GUESTS

Men of the community proved luckier than the ladies in the matter of winning the door awards offered by the Pacific Gas & Electric Company at the close of its two-day house warming program in Niles last Friday afternoon. Seven valuable presents were offered by the company and all seven were won by men.

At the time of the drawing there were more women than men in the audience. The results were as follows:

E. F. Glassbrook, a Radiantfire heater.  
D. M. Carvo, second, an electric cooker.

E. V. Jones, third, a kitchen unit.

Harvey Braun, fourth, George Boni, fifth, Arnold Bellini, sixth, and Angel Popper, seventh, all of whom received a lamp kit containing six electric bulbs each.

During the two days program approximately 500 persons visited the Niles office of the gas and electric concern. All business for Washington Township will be handled through this office, and considerable favorable comment was made by the visitors, according to Manager George Donovan, in regard to the fact that the township now has a central office.

One of the services to be given from the Niles office will be handling of service and trouble calls. Through this means it is hoped by the company officials to eliminate many of the misunderstandings which have arisen in the past over complaints. All patrons of the P. G. & E. have been requested to lay their queries before the management in the Niles office.

**MRS. McCRAVEY PASSES**  
Funeral services were held yesterday in Oakland for Mrs. Amber May McCraev, who passed away on Tuesday at the Niles Home for the Aged where she had resided for the past two years.

According to Mrs. Barker of the Home, the deceased had no near relatives in California. She was a native of Ohio.

## 10-YEAR RECORD BRINGS HONOR TO FRANK SOUZA

Frank Souza of Centerville, was awarded a 10-year pin by the Pacific Gas and Electric Company at its meeting of veteran employees in Oakland Friday night. Mr. Souza was the only representative of the Washington Township district to receive an award.

Mr. Souza is a trouble shooter for the company with headquarters in Centerville. He has been connected with the company for slightly more than ten years.

Miss Laura Dutra and John E. Dutra of the Niles office attended the meeting. George Donovan, manager, was forced to be absent because of illness.

"Sarah, did I see you kissing someone in the garden this morning—the milkman or the postman?"

"Er—excuse me, ma'm—was it about half past seven or was it after eight?"—Answers.

## Friday, the Thirteenth Holds No Terrors for Right Thinking Folks

Tomorrow will bring another Friday, the Thirteenth.

Superstitious folk will put an extra guard on their actions. Folks who don't believe in black cats, ladders, broken mirrors and the like will go about their business as usual.

Friday, the Thirteenth, is no different than any other day on the calendar. A black cat crossing your path on Tuesday, the Twenty-Second, doesn't mean a thing so far as your fate is concerned, and it doesn't mean a speck more on Friday, the Thirteenth.

If you break a looking glass any day of the year about all it means is that you will have to buy another. If you walk under a ladder on a working day you might get clonked on the head with a brick; if it's a Sunday the chances of getting hurt are slim. Because Friday, the Thirteenth, is a working day, the brick might fall, but don't blame the date. That's all foolery.

Superstitious people worry part of their lives away. Don't worry. Don't be superstitious. Don't have any misgivings about Friday, the Thirteenth. Be natural. Be optimistic.

mistic. Look only for the good things in life on Friday, the Thirteenth, and every other day. You'll live longer.

## AIRPLANE BUILT BY LOCAL BOY CIRCLES OVER TOWN FRIDAY

Circling over Pleasanton before Brummer formerly of Pleasanton, at the California Polytechnic Aeronautics school in San Diego, was seen by numbers of the townshippople shortly after noon last Friday.

Brummer had notified his parents and others in advance to look for the plane, which was orange with blue wings, and when word passed around that the plane was in sight, it caused a small exodus at the high school.

## Big Program on Tap For Annual Hi Jinks

A program headed by a feature artist from Radio Station KFRC, San Francisco, will be given next Sunday by the Centerville Athletic club. The affair marks the club's annual "big jinks" night, which is always topped off with a chicken banquet.

A barrel of fun is promised to be uncorked by the committee in charge of the program.

ASSOCIATED OIL COMPANY NEWS, WEDN

# BERKELEY FORD OWNER TURNS ASSOCIATED ETHYL BOOSTER

BERKELEY, Calif., Aug. 21 (EP)—About one year ago G. R. Wilson began driving one of the new Fords. From the first he has been enthusiastic over its performance. But recently he was persuaded to try Associated Ethyl Gasoline. He noticed a tremendous improvement in the operation of the motor, and now, he says, it would be hard for him to go back to ordinary gasoline.

"The increased power on the hills is almost unbelievable," says Mr. Wilson, "and the motor 'ping,' the car had developed as carbon increased, is no longer noticeable."

Associated Ethyl Gasoline increases power by putting carbon to work. It gives stronger, smoother engine action, less shifting, quicker pick-up and knockless performance. This super motor fuel reduces operating costs and lengthens your motor's life.

Drive in at any red, green and cream station or garage and fill up with Associated Ethyl Gasoline. You'll notice the difference.

NEW DAY OPENS AT 7 A.M. ASSOCIATED ETHYL GASOLINE. Select from in Nature and House. PRICES ALL DAY AT BERGER'S. Oakland, Calif.

Learn more of the West in which you live. Hear the colorful "Roads to Romance" program over NBC coast network stations each Wednesday evening at eight o'clock.

## Local Brevities

Mr. and Mrs. H. Chadbourne visited the State fair and report having had a very enjoyable time. They were particularly impressed with the fine cattle from the Bonno ranch.

Miss Mamie and Miranda Norris are visiting in Santa Cruz. They plan to be gone a month.

Mrs. George Pena of Santa Clara is the house-guest of Mrs. Leola V. Hayes this week.

Judge Allen Norris had the distinction of being Grand Marshal of the local Native Sons on Admission Day at Santa Cruz. The local parlor did not compete for prizes.

Mrs. V. Amis has returned to her home here from Oakland where she underwent an operation for a throat disorder. She is reported to be recuperating rapidly.

## Club's Annual Luncheon Is Most Delightful In History

A symphony of color. A marvelous repast. A delightful program.

The above describes in a modest way the annual luncheon of the Country Club of Washington Township held Tuesday noon at the clubhouse in Centerville.

Described as the most colorful and successful of any meeting to date, this year's luncheon-session will go down in the annals of the club in red ink. More than sixty clubwomen were present.

Presided over by Mrs. Walter Robie the meeting occupied two full hours with not an idle moment. Mrs. S. S. Ripley, district federated president, and Mrs. Edgar W. Pickering, president of the Alameda county Federation of Women's Clubs, were the principal speakers.

Both of the visiting speakers proved ideal talkers and told the large audience much of interest concerning club work. Mrs. E. Marr entertained with three fine character readings, dressing in costume for each one.

Those who are to be credited for the beautiful decorations and fine dinner includes Mesdames W. Wyatt, R. L. Pond, J. L. Olsen, E. M. Hawley, E. A. Ellsworth, A. T. Biddel, Ralph Emerson and H. Searls.

There were twelve presidents of neighboring clubs present.

The St. James Men's club Centerville, was entertained last Thursday evening at the home of Newark Lax. Mr. Lax proved an admirable host, sitting at the head of a heavily-laden dinner table.

The club discussed business between courses of the splendid repast and voted to hold a card party September 20. A committee was appointed to arrange for this social affair.

Fifteen members of the club were present as the guests of Mr. Lax.

Mrs. F. O. Bunting was a visitor this week in San Francisco.

Mrs. B. Hawley was a guest at a luncheon given this week by Mrs. F. Curtis, of Palo Alto.

## SHERIFF BECKER AT C.O.F.C. TODAY IN CENTERVILLE

Many Important Matters to Come Before Booster Body

Centerville Chamber of Commerce is meeting today, Thursday, at noon in what marks the resumption of activities for that body after a summer vacation. F. T. Dusterberry, president, and Dr. D. B. Eaton, vice-president, were both expected to be on hand to conduct the session.

Such important matters as the paving of Main street from the line of the county highway to the curb, and many other civic problems were scheduled.

Sheriff Burton F. Becker of Alameda county was listed as the speaker of the day. Sheriff Becker was to speak on his proposed prison farm, which he contends would not only relieve congestion in the county jail but would save the county thousands of dollars a year on produce used in the various county institutions.

## THE WEATHER MAN SAYS

September 12, 13, 14—Mostly fair everywhere this side of the Continental Divide with an hardly noticeable disturbance over Washington and British Columbia around the latter date.

September 15, 16—Generally fair with moderate temperatures.

September 17, 18, 19, 20, 21—The beginning of a series or an accumulation of storms will sweep down from the region of the Aleutian Islands and drop generous rain over the Canadian provinces and our own. Washington and Northern Oregon and California will be able to judge extent of this storm in the Northwest by the increasing cloudiness with sprinkles over its mountains. The compaginate Arizona low will again deepen with the same result.

September 22, 23, 24, 25, 26—The above storm will continue in the Northwest on these dates and possibly increase in character, while the weather in California will become menacing, with possible rain over northern as well as central regions, especially around the 23d and 24th of the month. Arizona will also continue to be proportionately disturbed.

September 27, 28, 29—Will see the passage of the above storm to the eastward and a return to the Pacific Slope generally of our frequent fair weather and pleasant temperatures.

September 30—Generally fair in California and neighboring States with a very minor disturbance over Washington and British Columbia.

Building permits in Redwood City during month of May totaled \$82,810.

## FUNERAL SERVICES HELD TUESDAY FOR S. HANSEN, PIONEER

Funeral services were held on Tuesday in Centerville for Sonke Hansen, pioneer of California and a resident of Centerville for the past thirty-eight years.

Hansen died at his home on September 6 following a long period of failing health. Besides the widow, Marie Hansen, the deceased is survived by three daughters, Louise Clough, Dora Anderson and Anna Smith, and a son, Silas.

Friends and acquaintances attended the funeral services held in the parlors of F. Botelho at 1 o'clock, and many made the trip to the Sunset Mausoleum, Berkeley, where the remains were laid in their last resting place.

Sonke Hansen was one of the best known residents of southern Alameda county. He retired some years ago from active business in Centerville where he has several business buildings to commemorate him.

## ST. JAMES GUILD STARTS SESSIONS

St. James Guild of this city opened its "after-vacation" meetings this week with a spirited session yesterday in Memorial hall. Mrs. G. S. Holeman was hostess.

Mrs. E. Chadbourne, just back from Alaska, told a number of her experiences to the members, all of which proved quite interesting.

The presence of Bishop Parsons was an enjoyable surprise. He returned to Los Gatos after the meeting. He is to spend a month in that city, he stated.

## Heavy Tomato Shipment Daily From Centerville

William Brothers, packers and warehouse men, of Centerville, this week announced the shipment of two carloads of fresh tomatoes daily to markets in the southwestern states. This exodus of the well-known table delicacy will continue until late in November, the packers state.

According to friends of Miss Maude Sinott, a former school teacher here, the popular young woman became the bride of Dr. Raph Arnold, of Los Angeles, recently. A honeymoon was spent in Northern California and the newlyweds are now residing in Los Angeles.

## GOOD WORK DONE BY WELFARE SHIP

The good ship, "Welfare," has just come into port with \$43 aboard. Thirty-five dollars of this amount has already been spent for children's clothing. Another voyage of the "Welfare" ship is scheduled for September 24 at Memorial hall. It is the hope of those in charge of this charitable work that another good "cargo of dollars" will be unloaded when the ship docks again.

H. I. Phillips the humorist, calls his dog "Penny" because when he got him he didn't look as if he would ever be worth a nickel.—The American Magazine.

If your vacation trip was a long one, the motor and chassis should be cleaned, checked over for loose bolts and nuts, and properly lubricated.

Township Register for Commercial printing.

## New Class Room For Centerville School

An addition to the Centerville grammar school to cost approximately \$11,000 will be under way next week, according to E. E. Dias, contractor of Niles, who received the contract.

The structure, which is to be built in the rear of the main building, will contain classrooms and was made necessary by the rapidly increasing attendance. It is expected to be ready for occupancy by the latter part of December.

The Register for job printing.

Centerville Lumber Company "Service With a Smile"

## Put Your MODEL T FORD

in shape for thousands of miles of additional service

Don't sacrifice your Model T Ford, but find out how much it will cost to have it put in good running order. We'll be glad to look it over and tell you exactly what it needs. Unless it is in very bad shape, you may find that a small expenditure will be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reborring cylinders and any other work necessary. Parts are extra.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4. A set of four new pistons and rings costs only \$7.

For \$9.25 you can get a new crankshaft, for an exchange price of 60c a new connecting rod, and for \$4 a new camshaft. A new battery costs \$8.00 and a complete new magnet coil assembly only \$5. A new carburetor costs \$3 and a new generator, \$12.50. New wheels run from \$3.25 to \$7, depending on the year and type.

We use only genuine Ford parts and all labor is charged at a low flat hour rate.

## Alvarado and Decoto Called Heart of Vegetable Garden

ALVARADO and Decoto, located about nineteen miles from Oakland, add distinction to Washington Township by being referred to as "the heart of California's vegetable gardens." Cauliflower, tomatoes, spinach, pears and sugar beets are the principal products, with dairying and poultry-raising claiming a good share of the labors of residents in these two communities. But in spite of its agricultural trend, there are located here some of the state's biggest manufacturing concerns.

In Alvarado is the Holly Sugar Corporation, built in 1869, the first beet sugar factory in the United States. As the concern grew, the monthly payroll reached \$22,000.00, employing nearly 200 men. This year's acreage will reach over 2,000 acres.

Here too is located the Leslie California Salt Works, manufacturing salt from the waters of San Francisco Bay and shipping it to points around the world.

The East Bay Water Company's pumping station, operating 800-foot artesian wells to the capacity of 12,000,000 gallons of water daily for use in the East Bay cities, is also one of Alvarado's business enterprises and its source of water supply.

A new industry is expected to be in operation here by the first of September, a \$50,000 cannery to be built which will furnish employment to about 100 people will encourage the growing of celery and string beans for canning purposes.

Alvarado was the first county seat in Alameda county. It was founded in 1851 and named for Governor Alvarado, one of the last of the old Mexican governors of California. It was at one time one of the leading shipping points on San Francisco bay, products being shipped from its wharves to San Francisco and the Orient. It boasts of a climate with only six degrees variance between summer and winter.

Alvarado is served by the Southern Pacific railroad and is only a short distance from potential water transportation. It has reliable banking facilities in the headquarters of the Bank of Alameda County, total resources for last year being listed at \$3,018,953.45.

Decoto is the home of the world's finest cauliflower, having received one dollar a crate above the top current market quotation in the east. It exports approximately 200 cars annually and lists among its products in addition, tomatoes, spinach, corn, peas, beans, sugar beets, alfalfa, grain, strawberries, cherries, apricots, plums, pears and apples.

With hill land for grazing, there are located in the vicinity of Decoto and Alvarado, eight of the state's largest dairies, producing about 2500 gallons of milk daily.

In addition to its agriculture, dairying and poultry raising, Decoto has several industries of importance. The W. S. Dickey Clay Manufacturing Company which makes clay products and building tile; the M & B. Tile and the Decoto Tile Companies which furnish roofing tile, the Hayden Cannery; the Giovannoni Brothers' Packing Corporation; the Tracy Waldron Fruit Company.

Here is located the Masonic Home for old people and orphaned children, at present being improved and enlarged to extend its comforts beyond the present number of 300 residents.

Services with gas, electricity, water, a motorized fire department, with main streets newly paved, and located within easy distance of the Niles' box factory and tile company, the sugar mill and salt works at Alvarado and the stove works and salt companies at Newark, there is unlimited opportunity for new-comers at Decoto, regardless of what line of occupation the would-be resident desires to follow.

And in addition to its business opportunities, in Alvarado and Decoto will be found a friendly community with both Catholic and Protestant churches, social organizations for young and old, a good grammar school with daily bus service to the township high school at Centerville, well-organized volunteer fire departments and live Chambers of Commerce.

The handsome rimless glasses fitted here will alleviate strain and improve one's appearance.

## KITCHEN CUPBOARD

By NELLIE MAXWELL

Some souls there are which understand  
And know each other, heart to heart,  
Though many miles of distance may  
Be seeming to keep them apart.

### Various Sauces

THE cold weather is the season when we enjoy different kinds of sauces. The sauce should not only make the dish more attractive and nourishing but it should be a balancer as well.

When an acid sauce is to be prepared use lemon juice instead of vinegar as it is much more wholesome. All citrus fruits have an alkaline reaction after being digested.

In addition to their wholesomeness the citrus fruits have a piquancy that seems to blend with a great many foods. Here are a few that are quite out of the ordinary:

**Rose Sauce.**—Take two chopped beets and a thinly pared rind of lemon. Cook for half an hour in water to cover. Strain and return the liquid to the pan, add the strained juice of two lemons, four cupsful of sugar and cook five minutes. Add one and one-half teaspoonfuls of rose extract. This sauce will keep and may be used for sweet puddings and ice cream. Use four cupsful of water over the beets, if large.

**Orange Raisin Sauce for Croquettes.**—Cream one-third of a cupful of butter, add three-fourths cupful of sugar, add one beaten egg, one-fourth cupful of orange juice and one-half cupful of seedless raisins. Cook over boiling water, stirring constantly until well heated. Serve hot with ham croquettes.

**Cream Pudding Sauce.**—Beat one egg until light, add three-fourths cupful of powdered sugar and when well blended add one cupful of cream whipped, two tablespoonfuls of orange juice and one tablespoonful of lemon juice. Serve cold.

**Fruit Sauce.**—Take one-half cupful of orange juice, one-half tablespoonful of lemon juice, two cupsful of confectioner's sugar and when well blended fold in one cupful of heavy cream. Serve on hot cottage pudding or on steamed pudding.

## LOCAL BOY SCOUTS HOLD PAPER DRIVE

Save your old papers and magazines:

That is the request of Niles Troop No. 1, Boy Scouts of America.

The local Troop needs money for a permanent building fund. Starting this week it is to launch a series of stunts through which the fund may be obtained. The first of these stunts is a paper drive.

If a Scout calls and asks for your old newspapers and magazines you will be doing him a favor by giving him all you have. Paper is valuable. The Scouts can realize a fair sum of money on each ton of old paper. So rather than burn yours, save it until a Scout comes to take it away.

## Sixteenth Council of P T A to Hold Session

The Niles Parent Teacher association is making plans for an all-day session, September 19, at which the Parent Teacher Council of the Sixteenth district will be entertained. Mrs. Harvey Braun, president of the Niles association is directing the framing of the program.

Approximately \$100,000 is being expended on a new four-story passenger depot at the Western Air Express terminal at Los Angeles.

The city council of Los Angeles is taking steps to have removed high-tension wires at one end of the municipal airport which nearly caused a disaster when the Graf Zeppelin was taking off.

## NEARBY and ...YONDER...

by T. T. Maxey

### Muir Woods

MUIR WOODS is one of the remaining original redwood forests. It occupies a canyon lying between a shoulder of Mount Tamalpais, the sentinel of the Golden Gate, and the Pacific ocean, a short distance north of San Francisco, and has been set aside as a national monument because of its rare beauty as well as to preserve the majestic trees which it contains. The reserve comprises some 500 acres.

Most of these trees are of the giant redwood variety, some of them nearly 300 feet tall, with diameters ranging up to 18 feet, a kind nature having arranged them in family groupings, their bodies acting as pillars, supporting a roof above formed by their joining tops. These tops wave in the wind and echo with the music of the songs of feathered tribes.

Sheltered from the winds off the sea which sometimes damage forests, the canyon becomes a natural haven for some 450-odd varieties of foliage, including an array of ferns which flourish in surprising confusion.

A strikingly unusual feature commands attention. One tree, killed by fire, has no living base to sustain it. After the fire and before the tree starved to death, another tree fell against it, lost its top, gave its sap to the first tree, revived it, and thus the two cripples grew into a single healthy tree.

"These trees," 'tis said, "have outlived the marble columns of the Greeks, who modeled their temples to express the glory of the woods. This grove stood when the temples were building, but it was not the forerunner of the beauty-loving builders to behold such a grove as this one."  
(© 1928, Western Newspaper Union.)

There was an increase of \$3000.000 telephone calls in Great Britain in 1927 over the figures for 1926.

On April 26, 1929, a radio-telephone service was inaugurated between the Nauen station in Germany and Siam a distance of 5,100 miles.

## AMERICAN LEGION PLANS BIG DANCE FOR NOVEMBER 11

Washington Township Post No. 195, American Legion, has taken off its vacation togs and gone to work again.

Tuesday night the first meeting of the Fall season was held with a big audience of members on hand. A feature of the meeting was a series of three talks on what happened at the State convention held recently at San Diego. J. E. Morrison and Frank Veit were the spokesmen and each one had a different slant on the big confab.

It was voted by the local Post to hold a ball on November 11, Armistice Day, at the Garden of Allah. Plans for the jolly affair were put under way and many fine suggestions were offered.

Judging from the preliminary plans, the Armistice Day ball will be a gala affair. It will mark one of the big social events of the year in this section of the county, the Legion members declare.

## Personal Mention.

The Rebekah Lodge of Niles was the guest of honor last Friday night at a combined business and social meeting held by Alvarado Lodge. Twelve members of the Niles Lodge and their husbands made the trip and report a most enjoyable evening.

Mrs. M. E. Chute, who has been spending the summer at Sacramento, expects to return to her ranch about September 16.

Mr. and Mrs. J. D. Ferry visited on Monday with friends in San Jose. On Sunday they attended the wedding of William Rocha in Oakland.

Mr. and Mrs. Ralph Richmond and son are expected home the latter part of the week from their vacation at the State Fair at Sacramento and Richardson Springs.

William Rocha, former resident of Niles, became a bridegroom last Sunday in Oakland, according to friends. The wedding was held in a Catholic church and was followed by a banquet and dance.

Mr. and Mrs. Joseph Gomes departed for a short vacation at Richardson's Springs this week.

## Consumer's Gas Co. May Institute Service Despite P.G.&E. Franchise

Despite the fact that the action of the Railroad Commission in denying the Western Natural Gas Company a certificate for the construction of a line from the Kettleman Hills to Richmond is regarded by many, including two of the commission, as having established a "dangerous precedent," this action is not conclusive evidence that the Consumer's Gas company will be unable to bring natural gas into Niles, nor that the Pacific Gas and Electric company will exercise a complete monopoly over the East Bay natural gas situation.

The question according to the Commission bulletin was decided on "One, the relative ability and willingness of the two companies to meet adequately the needs of the public, and the other the necessity and desirability of competition."

The feeling expressed by the majority in the Commission was that the P G and E already is established in the East Bay region, and already has proven its willingness and ability to serve some 97 per cent of consumers in the region under dispute, and has contracted for enough gas from Kettleman Hills to serve the district for some time to come.

Since the "monopoly" franchise granted to the Pacific Gas and Electric company not only grants them the right to distribute natural gas in the East Bay region, but to transport it from Kettleman Hills, up the San Joaquin valley, across to Richmond, with branch lines for Modesto, Tracy and Stockton, the P G and E now has practically complete control of the East Bay. Such is the opinion of Commissioner Carr, one of the two dissenting members of the board, who, with Commissioner Clyde L. Seavey vigorously fought the denying of a similar franchise to the Western company, which action they claim has established a "dangerous precedent."

The route designated by the Consumers Gas company in laying their plans before the Town Council of Pleasanton was from Kettleman Hills, up the San Joaquin Valley through Dos Palos, Los Banos, etc., to Patterson, through Patterson Pass to Livermore, Pleasanton, Dublin, and Sunol. Since the Western company has been denied the right to run a somewhat similar line, some doubt is expressed for the Consumer's Gas company's ability now to obtain such a franchise.

The representative of the latter company some months ago is said to have declared that his company would purchase gas either from the P G and E or from the Western company. Now that the Western company is denied a line through this section, the Consumer's Gas company would have to get their gas from the P G and E Kettleman Hills line.

According to the city journals the P G and E has started to act immediately under its new privileges, and has already begun on a \$25,000,000 program of natural gas expansion in the East Bay. Whether or not this territory will be included in this program cannot be said as yet.

At a late hour yesterday information as to the probable course to be taken by the Consumer's Gas company in fighting this "monopoly" or otherwise was not obtainable.

The petition of this company has been filed with the Commis-

sion some time since, but no decision has as yet been forthcoming.

In his dissenting opinion Commissioner Seavey stated that he cannot agree that because Pacific Gas and Electric company now serves 95 per cent of the gas business north of Fresno, and has given good service, and can extend its service to any territory not now served, that that company acquires any such rights to territory in which it has not ed its service, as the majority opinion would indicate.

Niles is one of those territories "in which it has not presently established and dedicated its service," and furthermore, a territory which the P G and E is said to have stated could not be served economically.

## ESSAY CONTEST OFFERS CASH TO LOCAL STUDENTS

### Early California History Is Subject For Discussion

A chance for students in the Washington Union high school to win a cash prize as high as \$50 is being offered by the Native Sons of Alameda county.

That organization is sponsoring an early California history essay contest that has been heartily endorsed by E. B. Hodges, principal of the local high school. Among the rules of the contest, which opened this week and closes October 14, is one stating that contestants must be enrolled students in Alameda county high schools, Junior colleges and other schools of high school standing.

Any phase of California history may be discussed. Only original essays will be considered and references and sources of material used must be given.

#### Other Rules Are:

Essays must not exceed, approximately 2000 words.

One side of the page only must be used. Typewritten if possible but handwritten essays will not be barred.

Name and address of the writer and the school which he attends and also his class must be enclosed in a sealed envelope and attached to the manuscript.

Essays will be collected by the Head of the History Department or some teacher designated by the Principal and these must be sent to the Chairman of the Contest Committee, George H. Oakes, of 920 1-2 A street, Hayward, California, not later than Oct. 14, 1929.

The six essays of highest merit will be judged by the Contest Judges in the New Auditorium of the New Oakland high school on Friday evening, Nov. 8, to determine the order of their excellence. Each essay will be read by the contestant or someone substituting and all prizes will be awarded to the winners.

Prizes will be as follows: \$200 in cash prizes, \$50 for first prize, \$30 second, \$25 third, \$20 fourth, \$15 fifth, \$10 sixth and ten prizes of \$5 each.

A motorist is a man who thinks his make of automobile is the best in the world, but is saving up his money to buy another kind next year.—Southern Lumberman.

## FAREWELL PICNIC

A farewell picnic in honor of Miss L. M. Breiner was held recently by members of the Mothers' Club and the Christian Endeavor at the Murietta caves, several miles from Altamont Pass. More than thirty-five persons attended.

Fritz Swanson has moved from Decoto and is now making his home in Oakland where he is employed.

Mr. and Mrs. Charles Bloise, formerly of Decoto and now of Oakland, visited friends here last Monday.

Miss Mary Caldeira has written friends that she is now employed in the superintendent's office in Schlusser's department store, Oakland.

Township Register for commercial printing.

## CLUBS HOLD PARTY

Mrs. Charles Bloise of Oakland, former officer in the Decoto Mothers' Club and Christian Endeavor, was given a delightful surprise party by members of the two organizations at her home on last Thursday evening. The party celebrated Mrs. Bloise's birthday.

## Plan To Send Son Of Local Judge To Compete For National Honors

Competing against champion spellers from all counties in the state, Wilbur Davis, son of Judge William T. Davis, of Pleasanton, eliminated all contestants to emerge with the title of the champion speller of California, \$200 in cash and a gold medal last Saturday morning at the State Fair.

Tentative plans now under way would send Wilbur to Washington, D. C. sometime in the future to compete in a national contest against representatives from the forty-eight states and the territories.

Young Davis was showered with honors at the close of the match. Governor Young, ex-Governor Richardson and other notables escorted him about the fair grounds, and he was taken to Sacramento radio station KFBK to deliver a few words.

A picture was taken of him in front of the Alameda county exhibit which now bears a sign announcing that Wilbur Davis of Pleasanton is the State spelling champion, Pleasanton's contribution to the county exhibit.

## POOR KITTY LEADS RESCUER VERY MERRY CHASE

Interesting facts pertaining to the operation of the Oakland Society for the Prevention of Cruelty to Animals of Alameda County, were revealed in the last monthly bulletin of the organization.

For the month of July the society cared for cases involving 1,134 animals, the greater proportion of them being dogs and cats, with horses ranking third. Another interesting item was the mileage covered by the society's ambulance—the amazing total of 1,059 miles during the month.

The report states that Miss Irene L. Hansen of Mission San Jose, found an injured dog near her home and drove the 35 miles to Oakland to see that it got proper care.

There are several humorous incidents recorded, including:

A call came to remove a dog that was acting queerly, and the society's ambulance was rushed to the scene. It was not known the exact nature of the trouble. The dog, seen through a porch window, was acting in a strange manner, its head all black, and panting for breath. The ambulance driver carefully approached the canine. There indeed was a gasping dog, covered with an old coat. The dog's head was "all black" for the little creature had stuck its head into a pocket of the coat and there it became fast.

One Sunday, the ambulance driver's day off, a call came from Russell City to rescue a cat that had been in a palm tree for two days. The driver gave up his leisure and went to the scene. He scrambled around the tree for several hours sawing off giant palm leaves, tearing his clothes in the task.

To make it a perfect Sunday, the feline jumped thirty-five feet to the ground and scooted home.

## Hubby Plays Dead

Marion, Ind.—Entering her home to find her husband lying on the floor, apparently dead, a bread knife in his hand and red ink resembling blood all over the floor, caused Delores Higgs so much mental anguish that she has filed a divorce suit here against Lemolne Higgs.

all over there will be no millionaires languishing in the Atlanta or Leavenworth federal penitentiaries. Jails were made to house criminals without money or friends. Occasionally, wealth breaks into jail, but when it does, it is a sign that long ago it lost its friends, and the power it once had was vanishing before trouble came.

## POLICE SEEKING HIT-RUN DRIVER

Driver Stops But Refused To Give  
Name. Is Claim; Occurred  
Near Here

Struck down by a hit and run driver, Robert C. Sloan, 53, 456 Eighth street, Richmond engineer for the Standard Oil company, died Sept. 3, at the Three Links hospital in Livermore from injuries resulting from the acci-

dent while police were searching for the motorist that struck him.

According to the authorities, Sloan was struck down when he was walking across the road from where he had stopped his car to offer a stalled motorist his assistance. The driver who struck Sloan stopped but refused to give his name, it is declared, saying that he would report to the Livermore police. The police report that he did not do so.

Sloan had his right leg crushed below the knee, necessitating its amputation Tuesday.

Death resulted shortly after from shock and infection that had already set in, according to physicians.

Sloan is survived by a widow, Carrie Sloan. His body was removed to Richmond for burial.

## Personal Items

Mrs. Harold Whittier and son, Terrell, of Sacramento, are spending a few days as the guests of Mr. and Mrs. H. C. McMahan.

Mr. and Mrs. H. C. McMahan spent Sunday visiting friends in Sacramento.

Mr. and Mrs. Emil Lindquist and son, Lowell, spent Sunday visiting friends in Sacramento. While there they attended the state fair.

There is a lot of extra sunshine today around the home of Mr. and Mrs. Renaldo Cozzi, Niles, due to the arrival of a bouncing, eight and one-half-pound baby boy last Sunday. The youngster was born at the Silva maternity home. Latest reports are that mother and son are doing nicely.

The Niles' Parent-Teacher association has set aside the last week in October for one of its delightful card parties. According to Mrs. Harvey Braun, president, there will be the usual attractive prize list and delicious refreshments.

Tinega Group, Campfire Girls, will resume regular weekly meetings tomorrow at the home of the guardian, Mrs. J. E. Townsend. Tinega Group has been enjoying a two month's vacation.

Address Box 00, Niles Register.

Among the Niles residents to spend the Admission Day holiday at Pacific Grove were Mr. and Mrs. P. A. Ellis. They report having had a splendid outing at the seaside resort.

Mr. and Mrs. A. F. Johnson of Hotel Belvoir were visitors over last week-end with friends in Berkeley.

Mr. and Mrs. J. C. Walton, of Niles, were Saturday, Sunday and Monday vacationers at Pacific Grove. The Labor Day week-end was spent by the Waltons and Mr. and Mrs. P. A. Ellis in Crescent City.

Allen Shinn, student at Annapolis, is visiting his parents, Mr. and Mrs. J. C. Shinn, of Centerville, road, this week.

## Low Flying Planes Wake Ranchers In Niles-Centerville Rural Districts

The roar of an airplane motor, seemingly so close to their roofs it might rip off the shingles, disturbed and alarmed several ranchers between Niles and Centerville one night this week. It was an air mail pilot keeping his plane within sight of the Hetch Hetchy camps scattered throughout the Livermore mountains.

According to officials at the Oakland airport, the camps, which are brightly lit at night and are only a few miles apart, serve as beacons to keep the pilots on their course between Oakland and Los Angeles on nights when visibility is low.

Last Sunday night the low-flying plane awakened a number of ranchers in the Niles-Centerville section, resulting in several telephone calls to the Oakland airport. Fear that a plane was in distress and might be seeking a landing spot was expressed in most of the messages.

Officials at the airport state that pilots leaving the airport at night when weather conditions are unfavorable use their instruments to lead them to the Irvington gate portal of the big water project, on the side of the mountains just north of Mission San Jose. When these lights are sighted, the pilot checks his elevation and heads for the next camp, located near Sunol.

The Goddess of Freedom atop the capitol dome at Washington is now illuminated with flood lights, as a warning to night fliers. The lighting was installed after a storm-tossed mail pilot missed the goddess by only 50 feet.

A rattling hood is sometimes caused by worn hood lacing. Replacing it will stop this annoyance.

## ARE YOU PAID UP?

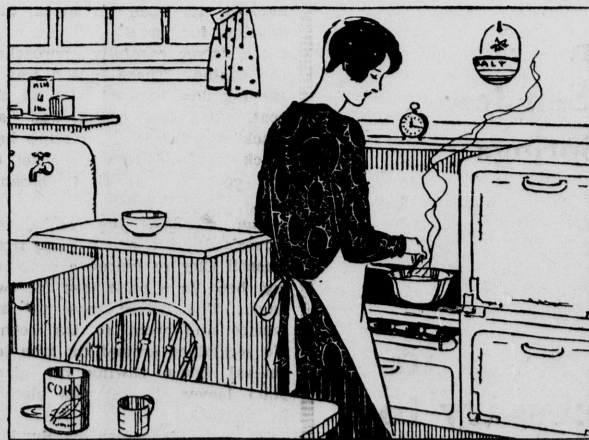

In the same line with your name on your paper the correct date when your subscription expires is supposed to appear. Notice this date. If it indicates that the subscription has expired, kindly send in your renewal.

odor—clear white flame. At grocers  
and red, green and cream stations.

## Corn—This Month's Economy

IN combination with fresh vegetables, canned ones may often be used to good advantage. For instance, a judicious blending of canned corn with fresh squash, celery or tomatoes will result in a dish which is unusual and delicious. At the same time the reasonable price of the canned food will offset the higher cost of the fresh, and so will lower the total cost for the dish. Here are some recipes which show how canned corn can be combined with other foods.

### New Corn Recipes

**Summer Squash with Corn:** Sauté one sliced onion in two tablespoons of drippings, add a pound of peeled and thinly-sliced summer squash and sauté a few minutes longer. Add one cup water, cover squash, and cook gently until tender. Add one cup of canned corn, one

teaspoon salt and one-eighth teaspoon pepper and bring to boiling. **Mexican Corn:** Sauté one chopped onion in two tablespoons butter until golden brown, add one tablespoon flour and stir smooth. Add two cups chopped, fresh tomatoes, two cups canned corn, two chopped pimientos, one teaspoon salt, one teaspoon sage and one-eighth teaspoon pepper. Pour into a buttered baking dish, cover thickly with crumbs and brown in a hot oven.

**Indian Corn:** Dice one green pepper and sauté in two tablespoons butter until a golden brown. Cut link sausages into slices, add to pan and sauté until about half done. Add salt and pepper, contents of a number 2 can of corn, one-half cup milk and two slightly beaten eggs. Mix well. Pour into buttered baking dish and bake about thirty minutes in a moderate oven (350 degrees F.).\*
